- **When removed leaves no trace of modification or foot prints**
  - **Power increases as you turn the switch clockwise**

**Continued**

## **Installation of the TS Performance Power Play Mp-8 2011 Ford 6.7L**

**Read all instructions and fully understand them before installing you TS Performance MP-8 module.  
Disconnect the battery terminals and remove keys from ignition before installation.  
Place Di-Electric Grease onto every electrical connection.**

1. Locate the Fuel Pressure Sensor Connector on the driver's side of the engine. It will be located on the end of the fuel rail at the front of the engine. In the picture to the right it is located below the insulated intercooler tube beside the valve cover.
2. Disconnect the factory harness from the sensor and connect the MP-8 wire harness to the sensor.
3. Now connect the factory wire harness to our MP-8 harness so that all connections are secure and tight.
4. Route the MP-8 harness over toward the driver's side fender and mount it using the supplied Velcro and zip ties.
5. Locate a place inside the cab you would like to mount the adjustable switch and route the switch harness through the firewall to the location of the MP-8 module. Connect it to the 3 wire harness coming off the MP-8. (If you do not want to mount the switch inside the cab it can be rolled up under the hood and zip ties out of the way.)
6. To use the switch simply turn it in a clockwise motion to increase in power or turn it counter clockwise to decrease the power. With the switch turned all the way to the left the truck will be stock. Turning the switch all the way to the right will give the truck a increase of 100HP.

**To lessen the regeneration process frequency, turn MP-8 back to stock in stop and go traffic. When going through regeneration process, turn the module to back to stock.**

**READ CAREFULLY BEFORE INSTALLING ANY TS PERFORMANCE PRODUCT**

**REMEMBER THIS IS A HIGH PERFORMANCE PRODUCT. USE AT YOUR OWN RISK. FOR OFF ROAD USE ONLY.**

**Do not use this product until you have carefully read the following agreement.** This agreement sets forth the terms and conditions for the use of the TS Performance product. The installation of this product indicates that the buyer has read and fully understands this agreement and accepts its terms and conditions.

**DISCLAIMER OF LIABILITY**

TS Performance, its distributors or dealers shall in no way be responsible for the product's proper use and service. The buyer of this system hereby waives all liability claims. The buyer acknowledges that he is not relying on the seller's skill or judgment to select or furnish goods suitable for any particular purpose and that there are no liabilities which extend beyond the description on the face hereof, and the buyer hereby waives all remedies or liabilities, expressed or implied arising by law or otherwise, (including without obligations of the seller with respect to fitness, merchantability and consequential damages) or whether or not occasioned by the seller's negligence.

The seller disclaims any warranty and expressly disclaims any liability for personal injury or damages. The buyer acknowledges and agrees that the disclaimer of any liability for personal injury is a material term for this agreement and the buyer agrees to indemnify the seller and to hold the seller harmless from any claim related to the item of the equipment purchased. Under no circumstances will the seller be liable for any damages or expenses by reason of use or sales of any such equipment.

The seller assumes no liability regarding the improper installation or misapplication of its products. It is the installer's responsibility to check for proper installation and if in doubt the manufacturer is to be contacted.
